When a softball game is tied at the end of seven innings, the International Tie Breaker rule goes into effect. At the start of each inning, a runner is placed on second base with **1 out** - the runner will be the last batter scheduled to bat in this inning. Any eligible player may be substituted for this runner. At least one full inning is played, allowing each team the same chance to score. If the score remains tied, the same process is used in each inning until a victor emerges (one team scores more runs than the other at the end of a complete inning).
